## How to use "SLIDESHARE" – to Share

- Once processed > Click on the Uploaded **Presentation Link (Title of Presentation)**.
- Click on the **EMBED** Button and **COPY** the **EMBED CODE**.  
> Paste into online site as a widget.

The screenshot shows a Slideshare presentation titled "Investigating characters" uploaded 8 months ago. The interface includes a navigation bar with options: Email, Favorite, Download, Embed, Flipcast, and More... The "Embed" option is selected, displaying a text box with the embed code: `<div style="width:425px" id="__ss_5254585"> <strong st`. A "COPY" button is positioned to the right of the code box. Below the code, there is a "Customize" link and a "Close" button. The main content area features a textured background with the title "Investigating Characters" and a list of bullet points under the heading "Thinking about ...":

- Their physical appearance
- Their natural setting
- Their motivation for the way they behave

On the left side, there are social sharing options for tweets, shares, and WordPress. On the right side, there is a user profile for "donnadye" with 64 views, 0 favs, and 1 embed. Below that, there is a "Related" section with three items: "Dr Who" (92 views), "Art I like volume 3 by Florent Vial" (721 views), and "A Brief History Of The Darkness" (1039 views). At the bottom right, there is an advertisement for Wildfire with the text "Social Media Marketing from Wildfire", "Build A Massive Fanbase.", and "FREE TO TRY! Get Started Now!".
